

Enlisted Accessions Recruiter (8R000)

1. This Command Job Qualifications Standard (CJQS) pertains to SDI 8R000 Air Force recruiting personnel. Tasks listed in Column 1 of the attachments are the most common tasks, knowledge, and technical references necessary for noncommissioned officers to perform their duties. Compliance with this JQS is mandatory for all individuals who have not completed their six-month training evaluation as of the effective date of this JQS. All others will continue using previous JQS until completion of all training requirements & certification. This CJQS will remain in effect until superseded or rescinded, regardless of date of STS. Tasks are functionally grouped by subject to aid in training process.
2. In Column 2, (C) identifies tasks, which are critical tasks. These tasks will have documented training within the first 60 days, regardless of the time phase of the task. Demonstration and performance training will be accomplished on all tasks until the satisfactory level is reached. Each task will be evaluated using one of the following two proficiency levels: **Satisfactory** level indicates the recruiter can do all parts of the task, needs only a spot check to complete work, and meets local demands for speed and accuracy while meeting production requirements. **Unsatisfactory** level means that the trainee is unable to do simple parts of the task and needs to be shown how to do most of the task.
3. Evaluations will be conducted at the fourth, eighth, twelfth (if required) and fifteenth (if required) month points. The evaluation may take place anytime during the month they are required. Certifications may take place anytime after the eighth month training evaluation. **Any critical task rated unsatisfactory will result in the entire evaluation receiving an unsatisfactory rating.** The evaluator must adhere to time phases identified for each task (see paragraph 4 for explanation of time phased tasks). Record reviews by the squadron trainer are required following all evaluations, and prior to certification. They will ensure all required training documentation is included, and the flight chief has properly identified training deficiencies and prepared an effective training plan to correct these deficiencies. The squadron superintendent will review the results of all evaluations, approve the training plan, and ensure it is followed.
4. All JQS tasks have been time phased according to the critical nature and mission impact each task may carry. Training will be given to each trainee by providing an overview, technical discussion, task demonstration, and finally, trainee performance. This training will be time phased. Time phased training period: The first number indicates the earliest a task may be closed and the second number indicates the time at which the task should be rated **satisfactory**. Example: A task time phased (4-8) means the earliest the task may be closed is the fourth month, and the eighth month is when the **satisfactory** level must be achieved. Ultimately the trainee must be able to perform a given task without assistance. Feedback and thorough evaluation are essential elements and must be included in each training session.
5. Supervisors and trainees are responsible for the accuracy of this JQS. The completion of the JQS form will be accomplished in the following manner. The training start date will be the date the trainee is assigned to station and will be annotated at the top of the AF Fm 1098 in the AF Fm 623. Each time the primary trainer provides training on any task, annotate the date in the first available block next to the task and have trainee initial in the block provided underneath. Repeat this each time you train, until they perform the task at the **satisfactory** level. When the **satisfactory** level is reached, annotate the date on the far right of the task and the primary trainer's initials directly below the date.
6. Training from the primary trainer will be documented directly on the JQS. Use AF Form 623a if the trainee is failing to progress or receives an **unsatisfactory** rating on a task or evaluation. All training on unsatisfactory tasks will be documented on AF Form 623a until the **satisfactory** level is reached. Training from other than primary trainer (squadron trainer, marketing, etc.) will be documented on the AF Form 623a and annotated on the AF Fm 1098 (i.e., MEPS, Admin, etc.). Supervisors are responsible for the training of recruiters under their supervision.

Flight Chief's Initials and Date
